

We are Austria's largest Research and Technology Organisation and an international player in the research areas that we cover. This makes us a leading development partner for industry and a top employer in the scientific community. Our Digital Safety and Security Department is seeking to hire a new Ingenious Partner for our location in Vienna:

Scientist (m/f) for Applied Cryptography

IMAGINE

- Cryptography and applied cryptography
- Prototyping and implementations of algorithms and protocols
- ICT security and privacy enhancing technologies

ENGAGE

- Development of cryptographic schemes, protocols and solution to increase security and privacy in networked ICT systems
- Publication of scientific results on international venues and in journals
- Active communication and dissemination of knowledge within the research group

ACHIEVE

- You will design novel security and privacy solutions for emerging ICT technologies like cloud computing, internet of things or cyber physical systems.

Your qualifications as an Ingenious Partner:

- PhD degree in mathematics, computer science or telecommunications with an emphasis on cryptography
- Prior experience in cryptographic research and applied topics
- Highly motivated team player with strong interests in respective topics
- Open minded, visionary, creative and enthusiastic about novel concepts and solutions

Your salary:

EUR 43.106,00 per year (gross income) based on the collective agreement (Forschungs-KV). Higher pay is possible depending on your qualifications and experience.

TOMORROW TODAY – WITH YOU?

Then submit your application documents, including certificates and photo to:
