**Dean Cheng** brings detailed knowledge of China's military and space capabilities to bear as The Heritage Foundation's senior research fellow on Chinese political and security affairs. He specializes in China's military and foreign policy, in particular its relationship with the rest of Asia and with the United States.

**Helmut Leopold** holds the position of Head of Center for Digital Safety & Security at the AIT. In this role, he has implemented several internationally recognized research fields in Austria including cybersecurity, data science, AI, optical communications, and 5G.

**Christoph Mecklenbräuer** is a professor at the Institute of Communications and Radio Frequency Engineering at the TU. His current research focus is on 5G and the Internet of Things, which includes vehicle-to-vehicle and vehicle-to-infrastructure communications.

**Anna Giulia Fink** is a foreign affairs editor at *Der Standard*. She has been with the daily since 2014, focusing especially on European and U.S. foreign policy issues. Prior to that, she worked as a reporter at the foreign affairs desk of the weekly *Profil*.
